

Protecting the Safety Net Project Materials

BIBLIOGRAPHY

The following Protecting the Safety Net materials can be found on Mosaica's website (www.mosaica.org):

1. **Protecting the Health Care Safety Net: A Summary:** PowerPoint summarizing project findings, presented at the Report-Back Session on August 29, 2012
2. **Washington, DC-Area Grantmaker Perspectives on Health Care Reform. Results of a Focus Group with Health Funders Plus Supplemental Interviews:** Description of current and planned funding and support of safety-net clinics, including funder concerns and emerging priorities; includes both foundation and corporate grantmakers
3. **Protecting the Health Safety Net: Models to Help Non-FQHCs Prepare for Health Care Reform Implementation:** Chart of models that may help safety-net providers, including free clinics, specialized providers, and other nonprofit and public clinics improve their sustainability under health care reform; includes descriptions and examples of entities using these models
4. **Preparing for Health Care Reform: Decision Factors for Safety-Net Clinics Not Receiving Third Party Reimbursements:** A description of a process safety-net clinics can use to explore options for sustainability under health care reform, with decision factors and a decision-tree chart
5. **Status of Health Care Reform Implementation in the District of Columbia, Maryland, and Virginia (as of August 13, 2012):** Chart of the current status of health care reform planning and implementation, including health insurance exchanges and Medicaid expansion, with links to State health care reform websites
6. **Medical and Health Homes: An Overview: Preparing for Health Care Reform:** A summary and background document defining and describing patient-centered medical homes (PCMHs) and health homes, as well as their use as part of health care reform
7. **The Safety Net Medical Homes Initiative Description:** A brief summary of the Commonwealth Fund-led initiative that is helping five regional networks of safety-net clinics, mostly community health centers and other federally qualified health centers, to become patient-centered medical homes, and producing research and tools useful to other safety-net clinics pursuing or considering medical home status
8. **Obtaining Third-Party Reimbursements: Issues for a Safety-Net Clinic to Consider:** A list of questions and issues, including needed analyses, for a safety-net clinic that is considering seeking certification for Medicaid reimbursements and/or acceptance of other third party reimbursements
9. **Policy and Practice: HIV/AIDS and Health Care Reform: Implications for Safety Net Clinics:** A paper prepared for the Regional Primary Care Coalition in early 2011 that summarizes and charts major provisions of the Affordable Care Act and their implications for the major types of safety-net clinics (including community health centers/federally qualified health centers, free clinics, and other types of safety-net providers) and for HIV/AIDS care providers.
10. **Protecting the Safety Net: Preparing for Health Care Reform Action Research Project Description:** Summary of project goals, scope, and activities

These materials were prepared by the Mosaica project team, including Emily Gantz McKay (now of EGM Consulting, LLC), Hila Berl, Vice-President, and Salem Tsegaye, Project Assistant.
